

About AMG

Advanced Merchant Group [AMG] is a full service provider of Merchant Services throughout the United States, and we are still expanding. We maintain the status of ISO / MSP in the credit card processing industry. AMG's core beliefs are to provide the lowest possible rates for small to medium-sized businesses, providing them with additional merchant services to increase revenue and the bottom line.

Headquartered in Warminster, PA, with satellite offices located all across the U.S., we are now recognized as a leader in Merchant Services in the Greater Philadelphia area and in various parts of the United States. We maintain an infrastructure unlike any other ISO in the industry. Even though we are headquartered in the Philadelphia Region, we also have processing centers in Seattle as well as Chicago. This helps us to maintain our infrastructure for our merchants as well as resellers.

Since 2001, we have made it our business to lead the way in payment processing. We process payments for merchants in both brick-and-mortar as well as cyber storefronts throughout the U.S. and Canada with more than \$1.6 Billion in transactions in 2006. We can help your business thrive by giving you more ways to succeed now and in the future. This is why more and more Internet retailers and service providers rely on us to handle their payments. But that's just the beginning. There's more to us than our state-of-the-art systems, our premier point-of-sale transaction processing and our own payment gateway. In 2007, we have developed our own Payment Gateway for AMG merchants as well as other merchants to process through.

Credit Card Processing

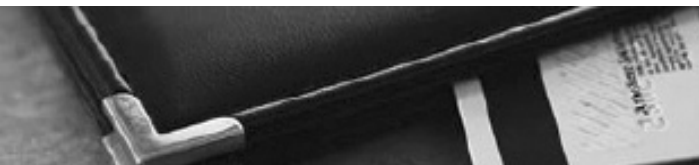

Accepting credit cards can increase sales as much as 40%. Accept credit cards and improve your business' overall bottom line.

Credit Card customers spend 2.5 times more than customers who only carry cash.

Impulse Buying: Credit cards give customers freedom to spend for previously unplanned purchases.

Debit Cards: 50% of Americans are using debit cards for their purchases. Debit cards are cheaper to process than your standard credit cards. Are you taking advantage of the lower rates and fees that are available?

Enhanced Advertising: Since customers are more likely to shop at businesses where they have credit / debit card acceptance, they tend to look for and read those ads first.

e-Commerce Processing

Processing credit cards over the Internet is one of the fastest growing segments of transactions today. We understand this and have designed the best e-Commerce solutions available to help your business succeed in the ever changing world of e-Commerce.

For Internet credit card processing, you'll need a merchant account specifically designed for that purpose. You will never take physical possession of a credit card so that you can swipe it through a magnetic strip reader or processing terminal.

To compete in the Internet and e-Commerce world, businesses need to process transactions quickly and thoroughly. AMG, along with our very own Payment Gateway, SecurePay, ensure speed for all your transactions, along with a plethora of other features that will impress the most savvy of internet users.

AMG SecurePay

Retail, e-Commerce & MoTo Processing Accounts can all utilize AMG SecurePay: Virtual Terminal & Payment Gateway. SecurePay is the solution that merchants have been waiting for. SecurePay can take the place of expensive software that merchants want to use as their POS Solution. SecurePay can do the reporting, the transactions and the security that every merchant should have and expect from their POS Solution & Software. To find out more, go to www.AMGsecurepay.com

Check Processing

Electronic Check Conversion lets you broaden your check acceptance options in confidence. In transactions acceptance ranging from out-of-state checks to large check amounts, AMG's Electronic Check Conversion lets you broaden your options with assurance, giving you more time to focus on your business and customers. Save time, add convenience & reduce risk with Electronic Check Conversion.

- Increase sales by accepting all types of checks including out of state checks.
- Decrease bad checks or even Eliminate bad checks.
- Simple to use because it mirrors a credit card transaction.
- Detailed online reporting available.
- Eliminates the cost of collection on dishonored checks.

Stored Value Program

Gift & Loyalty Card Programs

Gift and loyalty programs get customers into your store or business as only dramatic price reductions have done in the past and most consumers tend to spend more than the value of their card. Loyalty programs are an excellent opportunity for your business to reward and reinforce repeat visits and personal referrals from your customers. AMG provides a one stop solution, making it easy for you to initiate and benefit from both types of card programs.

- Easier for your business to keep records of.
- Easier for your customers to hold on to.
- Great marketing tools to keep your customers coming back.
- Able to create Higher Profit Margins.
- Opportunities to build a loyal customer.
- Tools that create sell up opportunities for your business.

Cash Advance

Need money for inventory, for cash flow, for expansion, for advertising? Are you having trouble getting it? AMG's funding solutions turns your credit card terminal into a direct line to cash.

- We will give your business up to \$100,000.
- Use it for advertising, inventory, capital improvements, or whatever your business needs.
- Have your funds in as little as 10 days.
